SUMMARY

- .Net full stack developer with 10 + years of experience building front and back-end applications with extensive programming experience focusing on **analyzing, architecting, designing, implementing**, unit and performance testing, and performance improvement of **N-Tier distributed Enterprise Grade** Web Applications.
- Core competency in .NET Framework Web-based application development using Microsoft.NET technologies including **C#, ASP.NET Web Forms, ASP.NET MVC, ADO.NET, EF5, Web API, SQL Server, HTML, CSS, JavaScript, jQuery, Kendo UI**, Software Design & Patterns.
- Proven track record of accelerating revenue growth through the strategic development of technical solutions that drive ROI, cost savings, and client retention within **Compliance Management Software** and **E-commerce** Verticals.
- Experience of working on all phases of the System Development Life Cycle (SDLC) using **Waterfall** and **Agile SCRUM**-based development methodologies.

SKILLS

Languages/ Scripting	C#, HTML, CSS, Javascript, JQuery, LINQ, Entity Framework, ADO.net
Frameworks	Asp.net Web Forms, Asp.net MVC, Web API, REST, Salesforce Lightning Development, Aura, Apex, PHP, Magento
Extras	Threading, Task Library, Windows Services, Microsoft RDLC Reporting
Database	SQL Server, Triggers, Stored procedures, Views, Functions
UI Libraries	Telerik UI Library, Bootstrap
Tools	Azure Boards, Azure Repos, GIT, TFS, Microsoft Visio, Lucid Charts, Jira (Agile, Scrum)

EXPERIENCE

Senior Consultant, December 2021 – Current

Fluor Corporation - Contract

Qeros Software Consulting Pvt Ltd, Pune, India

- Conceived & developed Enterprise-grade web solutions with **Kendo UI Library, ASP .Net MVC 5, C#, Entity Framework 6, LINQ, HTML 5, CSS, Javascript, jQuery** and **SQL Server**.
- Collaborated with cross-functional teams to gather requirements, analyze user needs, and implement new features.
- Building backend services with **Web API, Windows services** for web applications.
- Handled User stories/Task (Azure Boards), estimated, planned, managed, and reported daily status.
- Skilled in developing systems built on **SQL Server** using **Tables, Triggers, Views, Functions**, and **Stored Procedures** and maintaining the database, including requirement analysis, design, data conversion, loading, and implementation.

Key Accomplishments:

- Translated proposed Application/Feature designs into working code using tools for designing, coding and unit testing, leading to a **30%** reduction in bug fixes during the Quality Team phase.
- Implemented **Agile methodology** to define process framework and deliver features within deadlines, resulting in a **20%** increase in product delivery efficiency.

Senior Consultant, March 2014 – October 2021

Wiznucleus Inc, Pune, India

- Led the design, coding, and testing phases of a **.NET project**, integrating UI on the front end and utilizing **Web API** and **Entity Framework 5** with SQL Server backend, resulting in improved efficiency and streamlined data management.
- Engineered and developed Compliance Tools and Products using **ASP.NET Web Forms**, and **ASP.NET MVC** resulting in enhanced performance and scalability for the organization's core systems.
- Orchestrated end-to-end implementation of a cutting-edge web application, leveraging **Kendo UI Library** on the front end and **ADO.NET** with **SQL Server** on the back end, resulting in a seamless user experience and increased customer satisfaction.

Key Achievements:

- Tracked and reported software defects using bug-tracking tools, assisted with root cause analysis and resolved **75%** of issues discovered.
- Cut memory usage by **~65%** through improved coding practices and algorithm optimization, increasing the ability to run **9** intensive applications simultaneously.

Senior Consultant, October 2012 – February 2014

ISearch Pvt Ltd, Pune, India

- Developed, designed, and led the creation of diverse web applications, including **CMS**, **Magento**, **WordPress**, and custom-built sites, catering to various industries and scales. Utilized PHP and JavaScript for backend and client-side development. Managed legacy code upgrades and rewrites. Proficient in Linux administration.
- Successfully managed a **PHP** project, utilizing **HTML**, **CSS**, **Javascript** and **jQuery** for front-end development and **MySQL** for database management; resulting in a 30% increase in user engagement and improved overall functionality and user experience.
- **Troubleshoot** application issues, identifying and resolving bugs promptly to ensure optimal user experience and minimize downtime.
- Built **MySQL** scripts to build comprehensive dashboards, providing valuable insights and facilitating data-driven decision-making for business stakeholders.
- Engineered PHP scripts for essential modules like login, registration, and vehicle tracking with **GPS**, resulting in a 30% increase in user engagement.
- Collaborated with the backend team to create **RESTFUL** web services, enhancing system performance and enabling seamless data integration.

EDUCATION AND TRAINING

Vidya Vardhini's Institute of Technology, Mumbai University, India, June 2011
Bachelor of Engineering: Information Technology

LANGUAGES

English

PERSONAL SKILLS

- Provide updates to **top management, lead** and co-ordinate with the team.
- Confident, articulate, and professional speaking abilities (and experience)
- Empathic listener & **persuasive** speaker, **Influencing**, leading, & delegating abilities.
